

Are you thinking to start any business?

Get Ahead for Entrepreneurship Development Training Program

About Organization

The Federation of Business and Professional Women Nepal (BPW Nepal) registered in 2075 is a member of the global network of the BPW International consisting of 110-member countries. The goal is to advance gender equality and socio-economic empowerment of women capable of contributing to the social and economic development of Nepal. BPW Nepal's strategy is to tackle comprehensively and proactively economic and social challenges commonly confronting women as they strive to advance in their professional and business career paths. It has established Business Service Center (BSC) to deliver the business development services to women for their economic empowerment. So far it has already delivered 100 of BDS trainings and provided business counseling and mentorship to 1000 of needy women entrepreneurs who now are in different level of enterprises.

BSC is pleased to announce its forthcoming training programs for women and men who have already started small business or income generation activity and wants to grow their business to micro/small/medium scale enterprises. The training is specifically designed to assist and introduce current business prospective and acquire pragmatic knowledge and skill needed for the effective and efficient management for the growth and success of any type of business.
